

Acrylic Burlap Rootball Wrap

Designed to provide optimal protection for the roots of your trees and plants, these Rootball Wraps are ideal for trees and plants that are being stored or transported.

These Rootball Wraps are made from a combination of jute and acrylic yarn. The jute fibres decompose over time, leaving behind an acrylic mesh that provides long lasting root protection.

Available in three sizes (60x60cm, 70x70cm, 80x80cm). Custom sizes available on request.

Features & Benefits

- Long lasting root protection.
- Extra strong and durable fabric.
- Trees or plants can be moved even after planting with a rootball.
