

Heno Jute Grow Mat

The sustainable, efficient and clean way to cultivate flowers, grasses, and other plants. This grow mat is made from 100% natural jute fibers, making it fully biodegradable and an environmentally friendly choice.

The structure of the Jute Grow Mat allows seeds to easily root and supports strong root growth. In addition, the jute fibers have excellent water retention properties, creating the ideal environment for healthy seed germination.

This mat is an excellent sustainable alternative to soil and rockwool.

Ideally suited for:

- **Ornamental Horticulture & Greenery:** Cultivating ornamental flowers, grasses, and mosses
- **Erosion Control:** Suitable as a biodegradable seed mat on sloped terrain and embankments

Please note: This mat is not suitable for use in the food industry or for cultivating crops intended for human consumption.

Features & Benefits

- 100% biodegradable.
- Easy to use, no mess with soil.
- Produces a clean product.
- Promotes healthy, strong root growth.
- Reduces moss and/or algae growth.
- Contains less sulphur than flax and hemp, resulting in better growing results.
