

Heno Wool Mulch Mat

Made from high-quality 100% organic wool. This wool felt is mechanically needled and provides a versatile, environmentally friendly solution for promoting an optimal growing climate and protecting plantations, gardens and green areas.

This natural product is chemical free and offers excellent thermal insulation and absorption by utilising the natural properties of wool fibres.

Features & Benefits

- 100% biodegradable.
- Protects from frost and low temperatures.
- Protects against dehydration (prevents evaporation).
- Water permeable and breathable.
- Prevents weed growth.
- Prevents erosion and leaching.
- Acts as a natural fertiliser.
- Lightweight and easy to cut.
- Repellent against pests (e.g. snails).
- Natural degradation within 1-2 years, depending on weather influences.

Applications

- Biodegradable mulch matting for covering plantations, gardens and green areas.
- Biodegradable Geotextile, it prevents erosion on slopes or embankments.
- Suitable for green roofs because of its lightweight and beneficial properties for planting.
