

Klavermat 200 capillary matting

The Klavermat 200 capillary matting is a quality product that is produced from 100% new, high-quality synthetic fibers.

Every fiber has exactly the same properties. In combination with the unique 3-dimensional structure of the mat, this results in a very good capillary effect. A wide range of crops can be grown on the Klavermat.

The Klavermat 200 capillary matting is distinguished by its robustness, chemical resistance, constant operation and long service life. With the Klavermat it is possible to grow crops in a reproducible way and to quickly switch between different crops.

The Klavermat 200 capillary matting is the most widely used capillary matting due to its wide applicability. For the grower it is a flexible mat on which various crops can be grown.

Klavermat 200

Weight: 200 gr/m²
Water capacity: 2,0 to 2,5 liter/m²

Length: 75 meter
Width: 8 cm to 250 cm

Customization:

Henofa has punching and cutting machines to provide customization, for selling tables, cultivation gutters, container fields and deviating lengths. For more information, please send us a email on info@henofa.com.

Besides the standard version, the Klavermat 200 is also available with foil and groundcover.

Technical specification	Non-woven capillary matting	
Composition:	Nominal:	Tolerance:
Fiber composition	100% new synthetic fibers	
Weight (gr/m ²)	200	5%
Thickness (mm)	4,0	5%
Tensile-strength (kg/cm ²) Length-dry	3,0	
Tensile-strength (kg/cm ²) Width-dry	5,5	
Tensile-strength (kg/cm ²) Length-wet	3,0	
Tensile-strength (kg/cm ²) Width-wet	7,0	
Absorption capacity (ltr/m ²)	2,0 to 2,5	
Standard Length	75 meter	
Colour	Black
