

Securtiy Pool Liner PES

Henofa has developed a special fleece for the protection of swimming pool foil. This protective felt assures you of high-quality and durable protection.

This Fleece offers a strong protective function and prevents damage to your foil, caused by, for example, stones, irregularities and / or roots.

The Fleece is produced from 100% new, high-quality synthetic fibers (PES). It is strong, robust and rot and mold free. In addition, it has a long lifespan.

Why choose Securtiy Pool Liner PES?

- High-quality and consistent quality felt made from 100% new synthetic fibers (PES);
- Strong and robust for optimal protection of your foil;
- Absolutely rot and mold free;
- Durable, the product has a long lifespan;
- Simple and fast processing for the user.
